- GMS contract 1970's
- Hospital focus
- "Specialists"

Change happens slowly

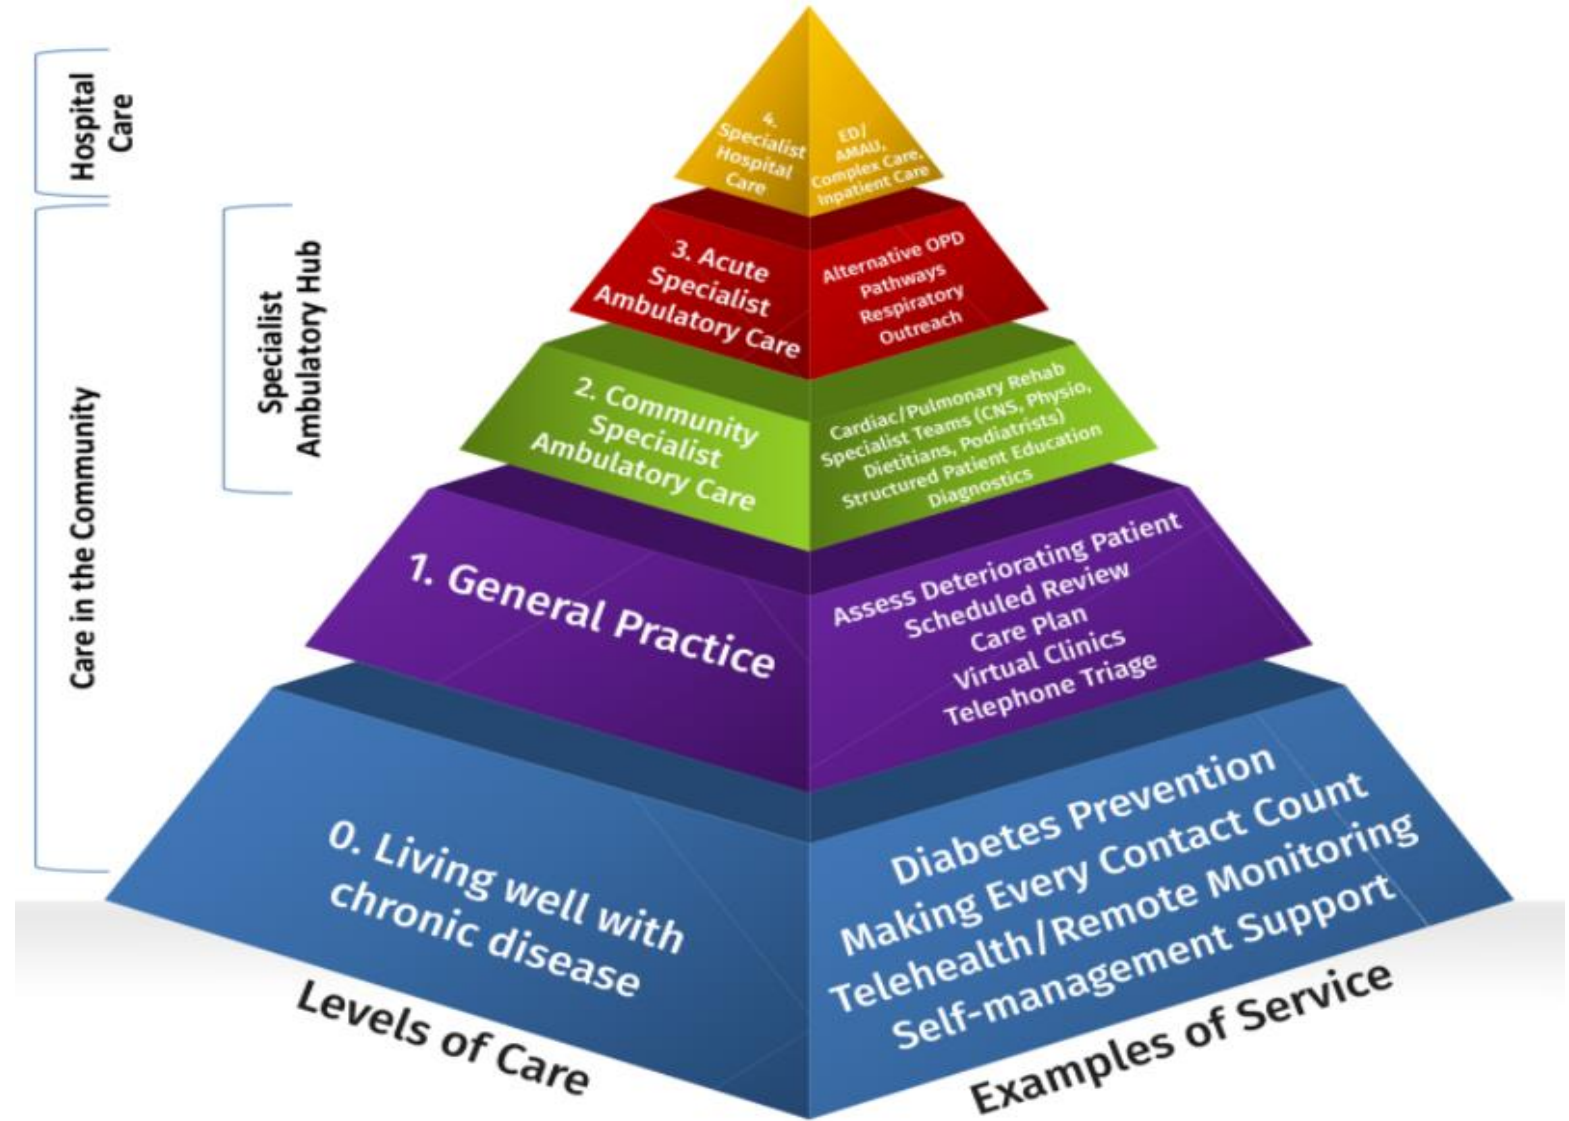

# Change is necessary

- Population changes, increasing survival
- National clinical programme with RCPI 2010
- Focus on utilising community resources
- Integrated care
- Chronic Disease Management

# The vision

# Challenges

- Workforce
- Change

# Opportunities

- Resourcing
- Slaintecare
- Early results

**National Framework for  
the Integrated Prevention  
and Management of  
Chronic Disease in Ireland  
2020-2025**

# What is keeping us busy

- Gestational Diabetes model of care
- Technology in diabetes
- Diabetes Prevention Programme
- CDM dashboards, supporting GP
- Models of care, adaptation
- Insulin titration guideline
- End of life care and Diabetes
- Pre budget submissions
- Parliamentary questions
